PSIB 21-04

Houston-Galveston Area Maritime Security Committee

SECURE LIBERTY II

Drill

October 08, 2004

The purpose of this PSIB is to inform local port stakeholders that the Houston-Galveston Area Maritime Security Committee (AMSC) will conduct an unannounced drill, SECURE LIBERTY II, the week of October 17 – 23, 2004 for one 6-hour time period. The drill is designed to test facilities within the Houston-Galveston Captain of the Port (COTP) zone regulated by the Maritime Transportation Security Act (MTSA) and their communication with the Port Command Centers (PCCs) and the Port Coordination Team (PCT).

The minimum requirements, listed below, must be accomplished by the Facility Security Officer (FSO) or their alternate, in order to receive credit for the drill:

- Respond to the One-Call system with your four digit ID code;
- Physically be present at the facility;
- Complete the Pause Checklist (reference AMSP, pages 197-199);
- Execute a Declaration of Security with all manned vessels moored at their facility desiring to participate in SECURE LIBERTY II. At a minimum, communicate with the Vessel Security Officer that they are familiar with their Maritime Security (MARSEC) Level 3 requirements; and
- Communicate to the respective PCC attainment of MARSEC Level 3 (simulated attainment is acceptable).

The drill will begin with notification, via the One-Call System (from telephone number 480.629.0005 or 615.465.9026), of an increase from MARSEC Level 1 to MARSEC Level 3. Participating facilities may either simulate the steps taken to attain MARSEC Level 3 or conduct facility security actions as stated in their Facility Security Plans. The various PCC names and numbers, and a facility/vessel exercise evaluation form, can be accessed by visiting the AMSC website at <http://www.amsc-hougal.com/> and click on the flashing button labeled "SECURE LIBERTY".

Direct questions regarding the SECURE LIBERTY II Drill, to Ms. Tobi Moore at 713.671.5118 or by e-mail at MSOHouPlanningMail@msohouston.uscg.mil.
